

## IF YOU ...

seek a lively and critical exchange with colleagues

- to present and develop your ideas and concepts on training, education and science / teaching in technical disciplines in theory and practice,
- to integrate the world's cultural diversity, its traditions and further advancements into your work,
- to reflect, discuss and implement the dimensions of sustainability<sup>1</sup> in science teaching, research and development,
- enjoy preparing young people to embrace the responsibility they carry for our world and fostering them as human beings,
- appreciate thinking outside the box as an intellectual challenge

... then it is worth your while to get to know the IPW – and become a member.

# IPW

*Ingenieur-Pädagogische  
Wissenschaftsgesellschaft*

*Scientific Society of  
Engineering Education*

*Société Scientifique pour  
la Formation des Ingénieurs*

Scientific Society for Engineering Education, IPW e. V. has its registered seat in Berlin. It exclusively and directly goes for nonprofit objectives.

© Ingenieur-Pädagogische Wissenschaftsgesellschaft, IPW e. V.

## SCIENTIFIC SOCIETY FOR ENGINEERING EDUCATION

### *perceives itself as a panel*

- for everyone of vocational and academic education as well as economy and politics who is interested in technical education – nationally and internationally,
- for an exchange on science and studies of technical disciplines, their engineering pedagogic approaches and theories,
- to discuss and critically appreciate current diverse and innovative concepts and examples of technical education,

### *fosters*

- a fertile academic dialogue, which seizes the diversity and abundance of academic traditions and developments in various cultures,
- a technical education for a comprehensive sustainable development<sup>1</sup> in the sense of the European and extra- European Humanism<sup>2</sup>, which encompasses the caring for a natural environment,

### *advocates*

- the unrestricted accessibility of knowledge on engineering education, developed all over the world, to everyone who is interested as a requirement for a lively discussion,
- the fostering of a fair development of technical education on a partnership basis throughout the world.

## OUR ACTIVITIES

### *Within a national and international scope, we host*

- academic conferences – in particular, we keep up with the tradition of “Regional Conferences on Engineering Education”
- lecture events,
- workshops,
- advanced trainings on technical education and engineering pedagogy,

### *and*

- release academic publications,
- inform the public on issues of technical education and engineering education,
- develop modules for advanced didactical training of engineering pedagogues.
